## **Sardine Meadow Restoration Request for Bids: Construction**

### **Addendum No. 1**

The Work included in the Request for Bids Document dated April 16, 2020 is amended to include the following.

Deadline for Requests for Additional Information. The deadline to submit requests for additional information is extended to May 15, 2020.

Fill Source suitability. Upon request, the project Engineer and Engineer's representative will examine a proposed fill source prior to bid submittal to provide preliminary approval of material suitability. Further testing at the Contractor's expense may be specified after examination.

Note: fill material will not need to be "certified" weed free, however Client may reject fill if significant amounts of noxious weeds are present.

Pre-bid Attendance. See the attached contact information for participants in the pre-bid meeting.

Site Access. Access to the site is permitted prior to submitting a bid. Limit vehicle access to existing dirt roads. You may walk the entire site. The access road to the lower part of the project area is fairly muddy, please do not drive through puddles or drive around muddy sections.

Budget. There is no engineers estimate for the project.

On-site camping. No camping will be allowed on the project site. As Forest Service regulations allow, there is ample camping in developed and undeveloped locations nearby.

Sardine pre-bid meeting
