Independence Fuels Thinning and Forest Health Project Request for Bids: Construction

Addendum No. 1

The Work included in the Request for Bids Document dated September 7, 2021 is amended to include the following.

- 1) Deadline for Requests for Additional Information. The deadline to submit requests for additional information is extended to Friday September 24th at 5pm.

Response to questions will be compiled and will be made public by September 27, 2021. Oral explanations or instructions given before the award of a contract will not be binding.

There is no change to the date that bid documents must be received. All bid documents are due by 5pm on October 7, 2021

- 2) Obtaining Exemption for Emergency Forest Closure. As of September 15 at 11:59 pm, the USDA Forest Service Pacific Southwest Region will rescind the Regional Closure Order affecting all National Forests in California including the Tahoe National Forest.

Due to the rescinding of the Regional Closure Order, there is no longer a need to contact the District Ranger (Quentin Youngblood) to obtain an exemption to access the project areas. As noted in the Request for Bids, contractors who are interested in bidding on this project are strongly encouraged to inspect the project work area.
