10:10	Standing Item: Committee Report Back <ul style="list-style-type: none">• No committees met since last meeting Objective: Provide updates from Technical Response Team, Fish Team and any other ad hoc teams
10:10	Streamflow and reservoir updates – Tom Scott, DWR <ul style="list-style-type: none">• Changes from previous forecast• Streamflow and reservoir levels forecast• Questions and discussion on projected operations Objective: Provide latest information on projected reservoir operations and model output, increase TRBWG member knowledge about TROA Outcome: See attached presentation.

	<p>Questions for Tom</p> <p>Question: From the graphs presented, it appears we will be able to continue rafting in the upper portion of the Truckee through the 1st week of August. Is this correct?</p> <p>The current model shows flows will likely be 220 cfs around August 4th and dropping to 200 cfs around August 7.</p> <p>Regarding the TROA annual report and California guidelines: Will there be a point when we can assess the CA Guidelines as related to fisheries?</p> <p>This is a complicated question to answer. We can analyze whether or not we are hitting the flow targets, but ultimately, we would need to conduct fish surveys at various flow rates to be able to fully determine the impacts on fisheries.</p> <p>USFWS or CDFW may have better data on this that could be correlated.</p>
11:10	<p>Standing item: Suggestions for future agenda topics & announcements</p> <p>Objective: Gather input from attendees for topics of interest</p> <p>No suggested topics at this time.</p>
11:15	<p>Standing item: Action Item report back</p> <p>Objective: capture key decisions, discussion points, and action items to include in meeting summary</p> <p>Is there a possibility to resume in-person meetings for the TRBWG?</p> <p>Beth will check on logistics and report back to the group.</p>
11:20	Adjournment – Chair
