EUER VALLEY PHASE 2 RESTORATION DESIGN REQUEST FOR PROPOSALS ADDENDUM 1

June 7, 2023

Responses to questions received to date:

Q. Is there a set budget?

A. The budget for this phase of work is \$135,000.

Q. How robust of a crossing is desired at Site 1?

A. The landowner does not want a bridge structure, the crossing is only intended to be used for winter grooming operations. Creativity in developing different options is welcome. Something like an arch culvert that could replace the existing culverts in the creek would be one approach. The winter crossing could be moved upstream or downstream from the current location if a less impactful site can be identified.

Q. What is the deadline for the Design Basis Memo?

A. The Design Basis Memo should be completed concurrently with the 65% design plans, expected to be completed by January 31, 2024.
