---	--

TRWC is releasing several Requests For Proposals (RFP) and Requests For Bids (RFB) for restoration design, construction, environmental compliance, permit assistance, and the like. We appreciate that some firms may wish to respond to multiple RFPs and RFBs. To help with proposal and bid preparation, we offer the following:

1. **Responding to Multiple RFPs/RFBs.** Firms may respond to multiple RFPs and RFBs. In the vast majority of our projects, a firm will not be prevented from bidding on future work if they participate in current work. In the rare case where this prohibition exists, we will state the prohibition in the current RFP or RFB.
2. **Lead Firm vs. Subcontracted Firm.** We understand and accept a given firm may be the lead in one response and a subcontractor in another response.
3. **Respond to Each RFP/RFB.** Each of our projects has a unique combination of partners, stakeholders, funders, constraints, opportunities, and timelines. Due to the characteristics of each project, we purposely release separate RFPs and RFBs. Firms must submit a response to each

RFP or RFB to be considered. While we appreciate that a firm might be able to offer efficiencies if we combined projects, the unique set of characteristics of each project prevent us from combining projects more than has already been done.

4. **Repeating Information Across Multiple Responses.** We understand and accept that information about the firm, its staff, past work, references, work approach, and the like may be repeated, perhaps even word for word, across multiple responses.

Project	Scope	Location & General Description	Release Week of	Contact
Independence Fuels	Survey and Timber Sale Preparation	<u>Location:</u> USFS Lands west of Independence Lake <u>Overview:</u> Silvicultural stand Inventory across 1,500 acres, including unit Layout, individual tree marking, and timber cruise	2/2/2026	Tiffanee Hutton
Independence Fuels	Survey	<u>Location:</u> USFS Lands west of Independence Lake <u>Overview:</u> Botanical surveys and a wetland delineation in support of environmental regulatory documents (NEPA/CEQA)	2/2/2026	Tiffanee Hutton
Boca Forest Health and Fuels Reduction	Oversight	<u>Location:</u> 1,350 acres between Boca and Prosser reservoirs on USFS land <u>Overview:</u> Registered Professional Forester (RPF) to coordinate construction activities and provide oversight of the selected contractor	3/15/2026	Eben Swain
